DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Smith (4977011).

Smith (4977011) teaches the invention as claimed including a headband, comprising:
a low stretch segment (2) sized to fit around a wearer's head; and an elastic (5) segment being smaller than said low stretch segment, said elastic segment having a free end and an attached end, said elastic segment being attached at said attached end with said low stretch segment, said free end of said elastic segment configured to form a closed loop with said low stretch segment around a wearer's head. Note the pleat is a visual indicator.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Allowable Subject Matter

Claims 11-14 allowed.

Art Unit: 3765

Claims 8-10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
